Mission

At EP!C we enrich the lives of individuals with intellectual and developmental disabilities.

How to Help

EP!C relies on our philanthropic community to help continue our mission and positively impact the lives of our individuals each and every day. Much of our fundraising is done through our signature events and EP!C programs, including EP!Casso, our art program, and EP!C Harvest, our farmers market and greenhouse. There are many ways to contribute financially through endowment funds, tributes, memorials, seasonal or year-round gifts, third-party fundraisers or cash donations. For more information, visit EPICci.org/donate.

We are honored to have thousands of volunteer hours each year across our many programs. We are truly grateful to those who give of their time, talent and treasure to impact the lives of our individuals. We can accommodate volunteer groups from one to 100; we have a project need that can speak to anyone! To learn more about volunteer opportunities, contact Carmen McCarthy at (309) 689-3606 or cmccarthy@epicpeoria.org, or visit EPICci.org/volunteer.

EP!C has served individuals with intellectual and developmental disabilities and their families since 1950 and continues to offer the highest standard of support and care.

We are committed to identifying participants' life goals and supporting them in building a strong foundation, giving them the abilities to reach their full potential. With a firm and stable foundation, participants can increase their resilience to the challenges everyone faces throughout their lifetime.

We offer a range of programs and services to provide EP!C individuals with the educational, residential and employment resources they want and need. By empowering our participants to reach their full potential, we enrich their lives, the lives of their family members, and the larger central Illinois community. We continue to be advocates for the people we serve and strive to be social change agents, breaking barriers of visibility and acceptance.
